EXPERTISE AND MOTIVATION

I have been acting as Director of the International Institute of the German Association for the Education of Adults (DVV International) since almost four years. All in all, I have more than 15 years of work experience in the field of education and development. Before joining DVV International I worked with an international education institution (German Academic Exchange Service, DAAD) for six years and another six years with two development consulting firms.

DVV International is one of the major players promoting adult education worldwide, currently working with more than 200 partners in more than 30 countries. DVV International understands itself as professional organization for adult education and development that aims at supporting the set-up of sustainable adult learning and education structures – through facilitating courses for people most in need, strengthening organizational capacities and human resources and through the provision of advisory services for the improvement of overall framework conditions.

There is no doubt that adult learning and education is more than ever needed to cope with the diverse global challenge we are confronted with. Based on work experience in the fields of adult education and development and my positive work record in organizational development, professionalization, fund acquisition and management of non-for-profit organizations I would like to support ICAE to receive the kind of political attention, funding and visibility it deserves.
